## SUMMARY

Results-driven Computer Science graduate (2026) with hands-on experience in software development, data science, and cloud-based systems. Proficient in Python, JavaScript, SQL, and REST API development. Built a zero-knowledge encrypted cloud photo storage system and an employee attrition analytics dashboard using Power BI. Completed 4 industry internships including Google AI/ML. Seeking a software engineering or data science role to deliver high-impact solutions.

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, HTML, CSS, SQL  
**Frameworks & Libraries:** TensorFlow, Pandas, NumPy, Matplotlib, REST APIs, Scikit-learn  
**Cloud & Tools:** AWS S3, Firebase, MongoDB, Git, GitHub, Jupyter Notebook  
**Data & Analytics:** Power BI, Excel, Data Visualization, Data Cleaning, Machine Learning  
**Methodologies:** Agile, Problem Solving, Object-Oriented Programming (OOP), SDLC

## EXPERIENCE

**Data Science Intern**, Vcodez Jul 2025 – Oct 2025  
Built and evaluated machine learning models on real-world business datasets; performed data preprocessing, feature engineering, and model optimization to improve prediction accuracy by 15%.

**Google AI/ML Intern**, Google (Online) Apr 2025 – Jun 2025  
Completed hands-on training in AI/ML model development, deployment pipelines, and Google Cloud AI tools; applied supervised learning techniques on structured datasets.

**Data Science Intern**, Altair (Online) Jan 2025 – Mar 2025  
Applied statistical modeling, data visualization, and analytical techniques on 5,000+ record datasets using Python and Altair's analytics platform.

**Full Stack Developer Intern**, Code Tech IT Solution Nov 2024 – Dec 2024  
Developed and deployed full-stack web application features using HTML, CSS, JavaScript, and REST API backend integration following Agile sprint methodology.

## PROJECTS

- 1. Zero-Knowledge Cloud-Based Photo Storage & Sharing System**  
*Tech Stack: Python, JavaScript, HTML, CSS, MongoDB, Firebase, REST APIs*
- Designed and built a secure cloud storage platform with client-side encryption ensuring the server never accesses plaintext data or encryption keys, protecting 100% of user data privacy.
  - Engineered a full secure data pipeline: key generation → client-side encryption → cloud storage (MongoDB) → authenticated local decryption, reducing data breach risk to zero.
  - Integrated a local ML-based facial recognition model for automated photo categorization, improving search efficiency by 40% without exposing biometric data to the cloud.
  - Developed a responsive Google Photos-style web interface supporting upload, view, and manage workflows for encrypted photos using REST APIs.
- 2. Employee Attrition Analytics Dashboard**  
*Tech Stack: Python, Pandas, NumPy, Power BI, Excel, Matplotlib, Scikit-learn*
- Built an interactive Power BI dashboard analyzing attrition patterns across 1,000+ employee records covering department, salary band, age group, and job role dimensions.
  - Cleaned, transformed, and validated HR datasets using Python (Pandas, NumPy) and Excel, reducing data inconsistencies by 30% and improving report accuracy.
  - Applied machine learning classification models using Scikit-learn to predict high-risk attrition employees with 82% accuracy, enabling proactive HR retention strategies.

## EDUCATION

**B.Tech – Computer Science & Engineering** 2022 – 2026  
Bharath Institute of Higher Education and Research CGPA: 7.5 / 10  
*Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Computer Networks, OS, Cloud Computing*

**HSC – Kalaimagal Vidhya Mandir Mat. Hr. Sec. School** 2022

**SSLC – Kalaimagal Vidhya Mandir Mat. Hr. Sec. School** 2020

## CERTIFICATIONS

- Data Analytics Job Simulation** – Deloitte (26-02-2026)
  - Big Data Computing** – NPTEL, IIT Kanpur (Aug – Oct 2024)
  - Diploma in Computer Application (DCA)** – CSC Computer Software College (2022)
- Soft Skills:** Team Collaboration, Time Management, Adaptability, Problem Solving, Quick Learner
- Languages:** English (Professional Proficiency), Tamil (Native)
